BULLETIN WANT ADS BRING RESULTS

FATAL CASE IN MINE.

One Miner Killed and Two Others Seriously Injured at Pernie by Accident.

Pernie, B.C., March 29.—A cave-in in number one mine, south of Coal Creek this afternoon resulted in the death of William White, an Indian, before the Machine Legislature and as a result of the discussion in less than eight months the Machine Legislature will be re-elected.

An Italian who was also working in the same room was injured and for a time it was thought that he had been caught beneath the cave, but it was learned that he had escaped. White was about 33 years of age, and it is said he was a family in Lancer, B.C.

OXFORD IN CLASSIC RACE BUT IS DECLARED VOID

The Boats of Butler Became Waterlogged—Cambridge Was Swamped and Rowed to Shore and Empty of Their Boats, Continues to the Finish.

London, Mar. 29.—(Butler) Race between Oxford and Cambridge was called from the start at 2.30 this afternoon. The race was officially declared void, owing to both boats being waterlogged. Oxford finished the journey emptying their boat, but they gave up. The time made was 28 minutes, 25 seconds.

The race was very bright weather, but there was a strong breeze, which was as good as to let the boats win the race. The latter falls Oxford crew, who chose the side. In the first minute Cambridge stroking 25 to the minute for 30. Oxford lost right fragment. At Craven steps they nearly a eighth, at Craven and a half length, rowing 25. Cambridge 21.

The Oxford crew, which had been favoured for some time even arranged its position at the last moment. Guy Nicholas and other famous Old Blues and other experts were, however, of the opinion that although they considered the Dark Blues a better crew, the great odds offered on them were unjustified.

The Oxford crew by hugging the shore kept the Cambridge crew until they reached Chiswick Boat. There as they were unable to do so, and the Cambridge crew, instead of pulling, they went ashore, which is a clear breach of the rules. The public was somewhat influenced in favor of the Oxford men by the fact that R. C. Horne had struck his crew to victory in the three preceding races and it expected him to establish a record by winning the fourth successive race.

PART OF OXFORD-BOATWORKERS' PARADE—A feature of the striking Cambridge demonstrators against the T. Eaton Company, Ltd. Towards the big parade on Saturday last, followed by a mass meeting in St. Paul, where four thousand people cheered the strikers' demand were urged to abstain from making purchases at Eaton's half the strikers are girls, but the leaders in the movement.

NEW LONDON, P. R. WIECK.

Ottawa, 29.—New light is thrown on the circumstances leading up to the wreck in the Canadian Pacific line near Hull on Friday 18th, by the announcement the company has dispatched a service the dispatcher requested the order to Harvey Hall operator, to hold the train that was subsequently.

Boat's hold the train as ordered on wreck, but it will come as a relief some comfort to the friends that the order was not a regular way. Assistant-Inspector Doyle, of the C. P. R. division, gave out the following statement: John Francis Cox, dispatcher, has been dismissed, an order for a freight train to encroach on the schedule of a first-class passenger train running on time.

CAMROUSE PUBLICITY PARTY RETURNS HOME

Enthusiastic Welcome Tendered Party on Arrival at Camrose, Friday Night.—(Camrose) Expected from the City cannot be Adequately Estimated.

Camrose, March 29.—(Polly) Fifteen hundred people headed by a band, gathered at the C.P.R. station this evening to welcome home the Camrouse publicity party. A torchlight procession was formed and marched up Main street to the opera house, where a remarkable demonstration was witnessed. C. D. Cornelle gave an eloquent address of welcome and the audience cheered every sentence of the party for an address.

Mr. R. M. Smith, who had been in London, gave a most interesting and vivid account of the party, which three settlers from the district, Toronto and St. Paul would be the first to Camrouse city in an hour.

st. He was most optimistic of the activity Camrouse would see this year. Arrangements had been made with all the railways to advertise Camrouse and the C.N.R. had definitely assured them that Camrouse would be the headquarters this spring for railway construction south, east and north to Edmonton. He was confident that Camrouse would not only be a good town, but a large city. This he based on the fact that the town was favorably known and that many settlers leaving Ontario were coming to Camrouse.

All the members of the party spoke in a similar strain and gave Mr. Smith great credit for the successful undertaking. The car had been away 23 days, had travelled 6,000 miles, had

been visited by 25,000 people, and had stopped at 250 leading centres. The direct results of such an undertaking will never be fully determined.

Washington, March 29.—The senate tonight by a vote of 51 to 16 rejected the Shreveport dollar-a-day pension bill which had passed the house and enacted the Shreveport dollar-a-day pension law which it is estimated will increase the pension roll by 128,000 annually during the next few years.

FOR THEIR LAST VOYAGE—Impressive parade at Havana, when United States marines bore through the streets the remains of their comrades, who went down in the sinking of the Maine, were carried to Arlington Cemetery—They were unidentified.

A CONSTRUCTION DEPARTMENT MAY BE ESTABLISHED

New Department Proposed for the Handling of Public Work.

WOULD COMPLETE ON FAIR BASIS WITH CONTRACTOR

City Engineer Says More Contractors Would be Induced to Bid for Work.

It is probable that an important new department may be formed in connection with the work of the city. The department will be known as the construction department, and it will have to do with the handling of the public works of the city. City Engineer Latimer is in consultation with the board of commissioners in regard to the proposed department which would be organized with a superintendent at the head, who will act as an independent capacity from the engineering department.

According to the views of the city engineer, the new superintendent would be a man thoroughly versed and trained in the construction of public works and should be responsible to the city commissioners. On behalf of his department, he would tender on all municipal work exactly as though he were tendering on behalf of a private firm and having no more connection with the engineering department than a private firm would have. Should his be the lowest tender and his department awarded the work, the department would be treated by the engineering department as though it were a private firm and the work subject to the same conditions as to inspection and payment.

The construction department would be required to finance itself on its own earnings. As an example of the operation of the new department, suppose it bid \$10,000 for a piece of street railway construction, and that being the lowest tender it was accepted, the work would be inspected and supervised by the engineering department and monthly estimates passed for the construction department. The \$10,000 bid price would be charged to the street railway department and if the job was done for less than the bid price the balance would go to the engineer. On the other hand should the job cost more than the amount of the tender then the construction department would have to carry the balance as a deficit, to be wiped out on some other job. All the expenses for clerical help, etc., offer real advantages to the city. The city engineer said that the construction department would have to be met out of the department.

It will thus be seen that the department would have to enter into competition with other contractors on a fair basis. The city engineer claims that this system would have many advantages over the present system under which the engineering department competes with the contractor.

He claims that more efficient work would be done and that more outside firms would be induced to compete. The fundamental necessity in connection with the new proposition, said the city engineer, is the adoption of an adequate system of accounting, to be automatically executed, by which the costs of going various classes of work would be adequately accounted for.

"Such a plan," he adds, "must be carried out so as to command the respect of the contractor."

Franchise Fight in Frisco. San Francisco, Calif., Mar. 28.—Frankie Burke of Oakland, knocked out Johnny Frisco, of the city, in the eighth round of their scheduled twenty-round bout at the Fremont hotel, last night. The fight was so fierce that the police were on the verge of stopping it when Burke knocked his opponent out completely with a right hook to the jaw.

Italian Ballroom of Bardonia. Paris, Mar. 28.—A dispatch received here from Constantine says an Italian military dirigible balloon has been sighted off Lamon, fifty miles from the entry to the Bardonia.

TRIAL OF CHARLES H. HYDE

Hearing of This Case Has Been Fixed for April 1.

New York, Mar. 28.—A panel of 600 jurymen—the largest ever summoned for a trial here—has been called for the trial of Charles H. Hyde, a native of Trent, N.J., former city chamberlain, who is accused of taking bribes and favoring certain banks in making city deposits. In the meantime and Hyde murder cases only about half that number were needed. The trial is set for April 1. District Attorney Whitman today asked Justice Sweeney to call this extraordinary large panel. Hyde's attorneys made no objection.

Because of the wide publicity given the case and because of the great number of persons connected directly and indirectly with the banks concerned it is expected that it will take several weeks to obtain twelve men who can satisfy the attorneys as to lack of prejudice.

NUMBER OF BUILDING PERMITS INCREASING

Permits Granted This Week for New Property on North Side Worth \$20,000 and for South Side Property Worth \$25,000—Returns for Month Show Large Increase.

The value of buildings for which permits have been granted last week by the city building inspector for both sides the river is approximately \$115,000. Of this \$10,000 represents the value of buildings to be put upon the north side and \$25,000 for buildings on the south side. The value of buildings for which permits have been granted since the beginning of the month is for the north side \$75,222 and for the south side \$75,250.

The following are the latest permits granted for the north side:

A. W. Williamson, brick house, 21st street, \$5,500.

N. A. McIvor, frame house, 21st street, \$4,500.

M. S. Sweeney, addition to house, McCulloch street, \$2,000.

Andrews, Payne & Conover, five houses in Great Estate, Block 44, lot 2 and 10, each \$1,000.

A. D. Kennedy, barn, Rose street, \$1,000.

M. Hayes, shack, Douglas avenue, \$1,000.

Mrs. Clearwater, alterations to house, Park avenue, \$2,000.

M. S. Sweeney, house, Kennedy street, \$2,000.

Mrs. Littlechild, house, York street, \$2,000.

Mrs. Littlechild, house, second street, \$2,000.

M. O'Connell, shack, Lorne street, \$2,000.

C. P. L. Freight shed, Block 19, Hudson's Bay street, \$1,000.

J. Rutherford, shed, Alberta avenue, \$1,000.

H. Humphill, cottage, John street, \$1,000.

F. Martin, garage, 22nd street, \$250.

J. A. Sturrock, house, Sinclair street, \$2,000.

Evans, Phipps, shack and barn, Wadsworth, \$2,000.

The south side permits for the week are as follows:

M. Brinkman, additions, Third avenue south, \$450.

M. Brinkman, frame house, Fourth street south, \$2,000.

W. L. Reid, frame house, Main avenue north, \$2,000.

T. Bernard, frame house, Seventh avenue north, \$2,000.

D. F. MacLachlan, frame house, 2nd avenue north, \$2,000.

H. Turner, frame house, 7th avenue south, \$2,000.

H. Verduyn, frame house, 6th avenue south, \$2,000.

J. Muller, stable, 7th avenue north, \$2,000.

James Ryan, cottage, 2nd avenue north, \$2,000.

J. L. Conover, four frame houses, 5th avenue north, 5th avenue north (two), and 1st avenue north, each \$2,000.

Atlantic City, N.J., March 29.—Turning along the sea front of this resort, a ship of the big four was seen, by the eye of the pier.

The pier was about 2,500 feet long, and was built with iron.

It was about 100 feet at the base, and was estimated at \$100,000, and is only partly covered by insurance.

It was built by the city.

HOME RULE BILL IS ONE THE IRISH PARTY CAN ACCEPT, HE SAYS

In Lancashire Men Voted Against Returning to Work Immediately.

OTHER DISTRICTS HOWEVER FAVOR RETURNING TO PITS

In Warwickshire the Mines Will be Fully Manned by Monday.

London, Mar. 28.—Notwithstanding the fact that conference between the Irish members and the government are still taking place, suggesting that the final form of the Home Rule bill has not yet been decided upon, the Irish Telegraph publishes what appears to be inside information, as follows:—

"The bill," he informed the meeting, first among himself no reporters were present, "is a good bill and one which we can accept."

"Conscious, no doubt of the dominant position which he holds, he said: 'The government that would propose any other would only be fit for the lunatic asylum.'"

"The object of this meeting," continues the Telegraph, "was to raise funds for the furtherance of the home rule campaign. Redmond assured his hearers that all the money obtained at this time would be solely used for this purpose."

"None was required in aid of the parliamentary fund. He expected that short of any unforeseen calamity—a European war, for instance—the bill would be brought forward by the end of August or the beginning of September."

Wireless Tower Collapses.

Nauen, Germany, Mar. 28.—A terrific storm caused the collapse this morning of the great skeleton tower, 156 feet high, belonging to the German wireless station here. There were no casualties. A new plant recently was provided by the station by means of which it was expected communication would be maintained with the stations in America.

WAS SHOT BY HIS GUEST.

Well-to-do Italian Killed in His Home at Los Angeles.

Los Angeles, Mar. 29.—Joe Soldano, a well-to-do Italian, was shot to death at his home here yesterday afternoon by two men he had entertained. According to Mrs. Soldano, the men had called and Soldano had brought up some wine from the cellar. After partaking of the wine the men said they would have to leave. As one of the visitors placed his hand on Soldano's shoulder in bidding him farewell, the other whipped out a revolver and shot Soldano through the heart. Mrs. Soldano told the police that she did not know the men.

The police believe that the crime was the aftermath of a family feud in which Soldano, his wife and the latter's brother, Andrew Pagan, participated a few hours before the shooting.

CLAIM AGAINST CITY.

A claim was submitted by J. K. McDonald, collector, to the city commissioners today, on behalf of Rosie Myronah, for \$200 as compensation for injuries she stated she had received owing to a fall from the steps of a street car. Alighting from a car at the corner of Samson and Clark streets, she claimed she was thrown violently to the ground, she walked to the theatre hotel, where she was employed. Becoming ill she was removed to the city hospital, where she remained at the hospital till the 13th, when she died, owing to her dissatisfaction with the treatment she received.

The case was referred to the city solicitor.

Attention of the city solicitor was referred for report to the superintendent of the street railway and the city solicitor.

The Eternal Question— Can You Keep a Secret

If you can't, don't read this, for it reveals a secret that is worth millions to those who possess it—

The Secret of Making Money

Every man who has an ambition to succeed in life—every man who has the welfare of his family at heart—WANTS TO MAKE MONEY.

To make not only a "living," but enough to provide his family with some of the luxuries of life, educate his children and give them a start in business or the professions, and to provide a competence for his declining years.

There is a secret in making money—some men have found it; others, just as capable, have not. The secret consists in knowing—WHEN AND WHERE TO INVEST YOUR SURPLUS EARNINGS.

Millions have been made in the past few years in investments in Edmonton Real Estate. These millions have been made largely by Small Investors—men and women who have had only a small amount to invest, but they invested it at the right time and in the right place. The time is NOW and the place is
